J. Meyer's Home Run Robs Glenbrook's Lutz Of No-Hit Shut-Out

Wauconda-Antioch Game a Tie, to Be Continued Here on May 15

Bill Lutz, ace hurler for Glenbrook had a no-hit shut-out game to his credit up to the seventh inning in the game with Antioch here Tuesday.

Then with one out Jerry Meyer, Sequoia catcher connected with a fast ball for a home run and Lutz' hope vanished.

It was the only Antioch hit and score while the Spartans were garnering eight hits and eight scores.

Swanson had but one bad inning, the first, in which the visitors' coupled hits and walks for four runs. Thereafter the Antioch pitcher limited the visitors to three hits, all singles. The game was played in a temperature that was below freezing at the close.

Glenbrook and Palatine are leading the conference as undefeated teams. Antioch has won one game, lost two and tied one.

The Sequoits had an 8-8 tie with Wauconda there last Friday when it became necessary to call play on account of darkness at the close of the seventh inning.

Play will be resumed at that point when Wauconda comes here for the return game on May 15.

Report Antioch Census Will Start on May 3; Officials Not Notified

John Schwander, special census supervisor, attached to the Chicago regional office of the U. S. Bureau of the Census said he would come to Antioch on Thursday of next week to direct the interim census.

The announcement was made from the Chicago office, and village officials received official notification of his coming this morning.

Usually the notice is sent well in advance so that notice can be given that enumerators are wanted. It is estimated that it will take five enumerators about three days to complete the job.

Antioch in 1950 had 1,300 residents, but an unofficial count made by local firemen placed it at 1,643 last year, and by this time it should be above the 1,700 mark.

An increased population will mean increased revenue in motor fuel tax income.

First Call Given for Little League Activity Meeting Set for Sunday

A meeting of the Antioch Little League will be held on Sunday, April 29 at 2:00 p. m. at the Little League field. Registration cards which were recently distributed in the local grade schools (St. Peter's, Antioch, Lake Villa, Emmons, Grass Lake, Channel Lake) may be turned in at that time by parents. This will be followed by a short try-out for the boys.

A meeting of the Minor League for registration and tryouts will be held on Monday, May 7, at 6:30 p. m. at the field.

Within a few weeks following the registration gatherings, parents will be requested by letter to attend planning meeting to assist in formulating the season program. Parents of all boys participating will be expected to attend.

D.S.T. Next Week

You may tie a string around your finger this weekend to remind yourself that starting Sunday this community goes on daylight saving time and when you retire Saturday night you should turn the clock ahead one hour. While Wisconsin neighbors may sleep an hour longer, they must remember Antioch business places close and open an hour earlier starting next week, and not come after the stores are closed.

Fire District Receives Huge Grass Fire Bill; Threatens Prosecution

Will Enforce Law Controlling Lighting of Trash and Grass Fires

Greatly concerned over the many grass fires during the past two and one-half months, the officials of the First Antioch Fire Protection district Tuesday evening decided on strong enforcement of the law regulating trash burning.

The officials got a bill for \$1,000 from the firmers who were called out night and day to fight grass fires, one or two of which caught and damaged buildings.

One family on Beach Grove road lost all of its belongings.

"We're going to enforce the law in effort to save the taxpayers this heavy tax which is unwarranted," said a spokesman for the fire district.

It is illegal to start a grass fire unless first permission is obtained from the Fire chief. In some instances grass fires got out of control. In other instances, it is believed that persons have maliciously started slough fires. This endangers not only property but wildlife that inhabits the sloughs.

There has been very little rain so far this spring and everything is dry and inflammable. Strong winds have fanned the flames of the grass fires almost beyond control of the firemen.

Cancer Fund Campaign Off to Good Beginning

Receipts for the first week of the April Cancer Crusade of the American Cancer Society in Antioch as well as the rest of Lake county were well up to expectations, according to those in charge.

Receipts in Antioch were \$148.

Dr. Peter J. Fargo, Lake Forest, county campaign chairman, said the drive got off to a splendid start.

"In the first two weeks of the month-long campaign," Dr. Fargo continued, "we have reached nearly 60 per cent of the Lake county goal of \$37,500. Such a gratifying response is due, I am sure, to the public's awareness of the need for funds to combat man's cruellest enemy through the Society's program of research, education, and service."

Attend Funeral

Mrs. George Ross and children and Mrs. Jack Vos of Antioch, and Mrs. Norman Cooper and son of Loon Lake attended the funeral of the grandmother of the three women, Mrs. David Biller of Draper, Wis. Mrs. Biller died Sunday and the funeral service was held yesterday.

Firemen Plan Fourth of July Celebration For the Community — Fireworks Display

Antioch will have a Fourth of July celebration this year. The Antioch Fire Department appointed a committee Tuesday evening to plan a fireworks display and instructed the members to find a suitable location for it.

The village has been without any kind of celebration for years, leaving to the resorts the task of providing the entertainment.

Nelson Gets Insurance, Jedeole Is New Auditor For Village of Antioch

S. Boyer Nelson was low bidder on the village's liability insurance and was awarded the contract at a special meeting of the village board Monday evening.

The board awarded the job of auditing the village books to Norman Jedeole of Antioch after many years of service by another firm.

All liquor licenses were renewed at the same fee as last year.

Because the special meeting was called for these specific purposes, no other business was transacted.

A.T.H.S. Band, Choir Plan Spring Concert For Saturday Evening

The High School band, under the direction of Louis Chenette, will conduct its annual spring concert in the High School auditorium at 8 p. m. Saturday.

The occasion is aptly titled "Springtime Fancy" and includes a musical narrative entitled "Manhattan Tower," in which forty players are involved depicting the scenes of New York through interpretive dancing and movements. Gene Prange is the narrator for the event and Carole Hansen will be the singer. It also has Edward Kadlec in the role of the owner and Sue Wolfenbarger as the "girl." Donald Chiappetta is director of dramatics and choreography.

The combined band and chorus will sing various selections and each group will take their turn as a single event. The "Springtime Fancy" promises to be a tremendous affair, and all parents, students and friends of ATHS are cordially invited to attend. Tickets are available from the participants and will be sold at the door. Doors open at 7 p. m.

Band:
Zampa Herold
In a Persian Market Ketelby
March: Golden Eagle Waiters
Combined band and choruses: "To Music" Davenport
Girls' Glee Club:
Deep in My Heart, Dear Romberg
Just a Cottage Small Hanley
O Little Star in the Sky Swedish
A Cappella Choir:
Adoramus Te Christi Palestina
Cherubim, Song No. 7 Bortniansky
One God Drake-Shirley
Contrary Mary Chenette
Specials:
Horn Quartet: Lenore McCord, Nancy Wetterberg, Sonya Pickus, Sally January:
Nocturno Mendelssohn
Baritone Solo: Robert Cain, accompanied by Mrs. Margaret Aschenbrenner:
Morceau Symphonique Guilmon
Selections: Frank Albert, Jay Cribb, Bill Henrikson.
Musical Narrative: "Manhattan Tower" Jenkins, arr. Chenette
The Tower
The Party
New York's My Home
Love in a Tower
Mr. Donald Chiappetta, dramatic director, Gene Prange, Carole Hansen, Edward Kadlec, Sue Wolfenbarger, the Tower Chorus, the Tower Instrumentalists and the Tower Players.

Lake Street Widened At New Jewel Store; Sidewalks Repaired

Widening of Lake st. at the front of the new Jewel Tea Co. store and parking lot is in progress at the expense of that company. The work is being done by the Hopper Construction Co.

The street will be the same width as it is at the postoffice and will relieve traffic congestion. The parkway was removed for a distance of 177.75 feet bringing the sidewalk to the curb.

On Main st. the gas company has been replacing the temporary sidewalk paving with cement, the permanent type. The sidewalks were torn up when new or better connections were made to business places. Blacktop was used for a temporary covering until the dirt fully settled.

It is probable that in years to come Lake st. will be widened still further to the west, for business seems to be growing in that direction as well as on Main st.

ANNUAL DEBATE...

High School Board Re-elects Scott, Biel; Will Consider Private School-bus Contract

Grade School Board Organizes, Confronted By Classroom Shortage

Second Meeting of Grade School Officials Called For Next Month

Fred Scott, as president, and Louis A. Biel, as secretary were unanimously re-elected to office on the Antioch Township High School Board Tuesday evening.

The motion for their return to office was made by Mrs. Ruth Seafarth and seconded by Dr. Richard A. Carlucci, both new members of the board, indicating harmony at the outset.

Dr. Carlucci, however, did not participate in the vote of confidence given by the board to Principal A. L. Dittman, and raised the question of the firing of teachers which brought no change in the previous attitude of the board.

A letter from the Illinois State Federation of Teachers announcing its resolution at a meeting in Peoria, Ill., calling for the re-instatement of Daniel J. Cahill, a teacher, was read and no action taken. The resolution charged that the firing of Cahill for writing a letter of protest in a Waukegan newspaper was in effect a denial of the right of free speech.

Cahill denied he had any part in bringing about the action of the ISFT.

A meeting again will be called for grade schools of the township in further discussion of common problems. At a previous meeting the unit system in which a common board for a single district for both grade and high schools would be set up. The meeting will be held Wednesday, May 16, if County Superintendent of Schools W. C. Petty is able to attend.

The board will also meet with the Chamber of Commerce and the village board of trustees in discussing a new road parallel to the Soo Line tracks on the east over what is now school property.

This would be an outlet for industry in the area and lessen traffic on Main st. The plan would be for the school to sell a strip of land for a roadway and then a subway would be built under both the railroad track and the roadway for the safety of students going to school.

(continued on page 5)

Erickson Sewing Center To Have Opening Friday & Saturday at Lake St.

The grand opening of the Erickson Sewing Center adjacent to the Antioch Theatre on Lake st. will take place tomorrow and Saturday.

Mr. and Mrs. Erickson will be on hand between 9 a. m. and 9 p. m. both days to greet the visitors. There will be gifts for both the old and young.

The Sewing Center will feature the Pfaff machine and will carry a full line of sewing accessories. In addition it will handle a line of draperies with 400 different patterns. Draperies will be made and altered, and slip covers made. Yard goods will be handled.

The Ericksons are former residents of Hamilton, Mont.

Band Second at State, Two Soloists Win First

Antioch Grade School won second place in the state band contest at Peoria last Saturday. Janice Hughes won first place with a bass clarinet solo, and Charles Bruhn won first place with a trumpet solo.

Petitions Seek Census In Grass Lake School Dist. for 7-Man Board

Debate Over Result of Election and Proper Notice of Bond Issue Continues

Petitions bearing the names of 94 electors in Grass Lake School Dist. 36 have been filed with Supt. of Schools W. C. Petty calling for a census in the district to ascertain whether the population is large enough for a seven member school board.

If the population is 1,000 or more, Petty will have to call an election to supply four additional members to the board.

Petty is vacationing in the Ozark Mountains and is not expected home until the last of this week.

The request for the enumeration accompanied continued argument as to whether the \$95,000 bond issue passed or not.

The present board said that the 132 to 131 vote in favor of the project meant that it passed, but others sustained by Petty interpreted the law as requiring that there must be a majority of the votes cast and the two spoiled ballots must be included in the total cast.

Criticism also was raised as to whether the official notice of the referendum was properly worded. Critics said that the notice failed to state the limit of the per cent of interest the bonds would carry, and the dates of retirement.

Officials of the present board could not be reached last evening for comment.

Mrs. Margaret Gaston Again Heads Tag Day For Salvation Army

Mrs. Margaret Gaston, 928 Main st., has been appointed Antioch chairman for "Doughnut Day," the Salvation Army's annual tag day to be held on Friday, June 15.

The appointment was announced today by Mrs. Howard A. Olson of Elmwood Park, suburban chairman of the drive.

As chairman, Mrs. Gaston will direct the activities of Antioch women who volunteer as taggers to assist in raising funds for the many social welfare services the Salvation Army offers to the needy.

Mrs. Gaston is inviting Antioch women to give two or three hours of their time to sell the famous paper doughnut tags. Individuals and club groups can apply for tagging assignments by calling Mrs. Gaston at Antioch 44.

As in all communities outside of Cook county, 20 per cent of the funds raised in

Economic Highlights

It's a thousand to one bet that you'd never be able to guess the source of the following quotation. It has to do with the "One Big Union" idea, as exemplified by the AFL-CIO merger, and is predicated on the argument that this would deprive union members of the right of withdrawal. It says: "We shall never subscribe to any movement such as the 'One Big Union' movement which must inevitably deprive the individual working man of his right of free choice and make him the servant rather than the master of his union."

No, that didn't emanate from an employer's organization or anything of the sort. It appeared in a newspaper advertisement published by an independent Chicago union of truck drivers which has some 12,000 members. It is quoted in an article by Madelyn Vieth, in National Republic, which describes the policies and personalities which make this union unusual.

To show just how unusual it is, another quotation is in order. It is taken from an announcement by the union's executive director, and concerns the Taft-Hartley law—a measure which most union spokesmen regard in the same manner as the devil regards holy water. The director said: "The legitimate activities of a legitimate union aren't hampered by this legislation, and we see no necessity for amending it."

From this evidence alone, the unknowing might guess that the union is a union in name only—that it is no fighter for labor gains. Nothing could be more wrong. In the 12 years since the present executive director took office, dramatic progress in that direction has been made. "Protection" payment to gangsters—a hangover from the Capone days—were ended. A new constitution was drawn up and every one of the union's members signed statements of approval. New contracts were won from the cartage companies, providing higher wages, shorter work-weeks, and many fringe benefits. According to Miss Vieth, these contracts now include "some of the most advanced provisions" in existence.

Also unusual—in an era in which some important unions are run from the top and the rank and file

firmed its faith in a free competitive economy.

Lake Villa

Mrs. Fred Barlett, Correspondent
Tel. Elliot 6-4454

Rev. Gerald Robinson's sermon topic for April 29th, will be "The Spreading Flame"—the concluding sermon of the series on the Holy Spirit.

Circle I of the Methodist church will have a sewing session to repair the choir robes at 10:00 a. m. in the church. Each member is asked to bring her own sandwiches and dessert will be provided.

The class which Rev. Gerald Robinson is training for church membership will meet at 4 p. m. in the church sanctuary.

The Methodist church will receive new members into its fellowship at the 11 o'clock service on April 29th. There will be a coffee hour at the parsonage at 3 p. m.

The Methodist church authorized the building of a new sanctuary and church school at a meeting Sunday, April 22. The new structure will be erected on the Delbert Sherwood property south of Grand Ave. in Lake Villa. John Perry and Robert Rolin, co-chairmen of the building committee announced that the sanctuary will be designed to seat 350 and the church school to handle 250 students. The estimated cost will be around \$140,000 plus furnishings. Mr. Robert Bailey, chairman of the finance committee was authorized to establish adequate means of financing the building program. At that time he announced that the church would secure aid of the Well's Organization to help raise the necessary funds. The church also hired the services of Mr. William M. Cooley, architect to design the new structure.

The Youth Fellowship for 7th and 8th grade, under the leadership of Mrs. James De Waters, will meet at 6:30 p. m. in the church.

The Senior High Methodist Youth Fellowship for all young people in grades 9 to 12, and out of high school will meet at 7 p. m. in the home of Mr. and Mrs. John Romer, adult advisers who live at the junction of Route 59 and Petite Lake road. The group has selected the following temporary officers until election time in May: Miss Linda Hollacker, president; Miss OmaLee Belke, secretary; Miss Lois Wagner, treasurer, and Ronald Mack, recreation.

The program this Sunday will consist of worship, led by Linda

are supposed to be seen but not heard—are other principles which this Chicago union follows. The director, as Miss Vieth puts it, "does not regard union members as captives." Certified statements on all financial matters are made public. In one of these it was said "Our union is a not-for-profit organization, its purpose, accordingly, is not to build huge financial reserves to safeguard the old-age security of Union officials, but rather to tailor the dues assessments to fit its financial requirements." Every effort is made to encourage union members to participate in civic affairs in the interest of honest government.

Most important, perhaps, is the encouragement given to all members to freely air their ideas and grievances. Open meetings are held weekly, and the union leaders are available.

There are other unions like this—though the public at large hears little of them. As Miss Vieth says in her conclusion: "In general, such independent unions . . . make little noise outside their area. Their names rarely appear in the nation's press. But they serve their members with honor and distinction."

* * *

Should We Regulate the Corner Grocer?

One of the most effective editorial discussions of the current natural gas problem appeared in the Saturday Evening Post of January 21, under the striking title "If Gas Producers Can Be Regulated, So Can the Corner Grocer."

These producers were not under federal regulation until June, 1954, when a Supreme Court decision gave the Federal Power Commission regulatory jurisdiction. They are not, as the Post makes clear, anything resembling a monopoly—there are 8,000 of them, with none producing as much as five per cent of the total. And from the consumers' point of view, the Post goes on, regulation will hurt their interests by bringing about higher rates—for the reason that it will cut down on volume and a smaller number of consumers will have to bear the transmission and distribution charges."

Then the Post says this: "The regulation of producers of natural gas is the first example of regulation of a competitively produced commodity. It would hardly be the last. Natural gas is more often than not intermixed with oil production. Could we regulate the gas and not the oil from the same field? Then why not coal, lumber, iron and on right into a complete statist strait jacket?"

This point is infinitely more important than any other involved in the gas controversy. If congress refuses to free natural gas producers from dangerous and needless regulation, it will establish a precedent of ominous character. If Congress does free the producers from regulation, it will have resoundingly af-

fective statist strait jacket?

Injured back. His friends hope for a speedy recovery.

Sally Wilson is a patient at the St. Therese hospital with an injured ankle.

Mrs. Wm. Thompson, Correspondent
Tel. 583W2

A stork shower was given Mrs. Loren Littlejohn Friday morning at the home of Mrs. Oscar Finkel. Mrs. Arthur Hennighousen was co-hostess. There were 25 guests present.

Mrs. William Gerber and daughter, Janice, Mrs. Eddie Van Patten, Mrs. Wilbur Hunter and Mrs. Will Thompson were luncheon and afternoon guests on Tuesday, April 17th at the home of Lt. and Mrs. Russell E. Hunter at Great Lakes.

Mr. and Mrs. Rudy Novy and two sons from Beloit, Wis., were Sunday afternoon and supper guests at the Joe Sheehan home.

Mrs. John Popp and Miss Inez Siver of Waukegan visited their cousin, Mrs. Will Welch on Thursday afternoon.

Spencer Wells of Trevor, Wis., visited the Curtis Wells family Sunday afternoon.

Mr. and Mrs. Bert Edwards and daughter, Doris, drove to Rockford on Sunday and visited the Ward Edwards family.

Mr. and Mrs. Fred Leable were Sunday dinner guests at the home of their daughter, Mrs. Blanche Alvinson in Kenosha.

Mr. and Mrs. Curtis Wells and Spencer Wells were Sunday supper guests at the home of Mr. and Mrs. Richard Wells in honor of Richard's birthday on April 18. Evening callers were Mr. and Mrs. Andy Magiera and sons, Paul and Glen. R. C. Bishop of Kenosha spent Thursday at the home of the H. A. Tillotsons.

Mrs. Curtis Wells was one of the 23 ladies of the Antioch Home Bureau who drove to Racine last Thursday morning and toured the Johnson Wax Co. plant. Later they drove to Heaven City, Wis., for their dinner.

Health Talk

Infections of the respiratory tract cause more loss of time from industry and from schools than all other diseases combined and, economically, the common cold alone costs the American public some two billion dollars a year. The Educational Committee of the Illinois State Medical Society observes in "Health Talk."

While colds are rarely a direct cause of death, they may precede or incite such serious infections as bacterial pneumonias, some forms of heart disease and meningitis.

Actually the respiratory tract involves the nose, the sinuses, the throat, the larynx, the trachea and the lungs. The entire nasal cavity is lined by mucous membrane, which is also a part of the entire respiratory tract, and it is the mucous membrane that is attacked by viruses, microorganisms or bacteria. The nose acts as a steam heating system supplying heat and moisture to the inhaled air. The coarse hairs in the nostrils trap and filter dust particles. However, finer particles pass these filtering stations and are deposited on some part of the nasal mucous membrane.

On the surface of the membrane are delicate hairs called cilia which cannot be seen with the naked eye and which move back and forth approximately 250 times a minute. A thin blanket of mucus lies directly on top of the cilia and this, combined with the wavy movement of the hairs, constitutes an effective defense against attack by airborne bacteria. It is when the defense is broken that these bacteria penetrate the outer covering of the mucus, getting into the tissue proper and the result is inflammation.

Inflammation of the mucous membrane can extend in various directions, but the nearest structure is the sinuses and these, of course, are commonly affected by a cold. Sinusitis is a frequent complication of the common cold, although it does not always develop following a cold.

Another complication of the common cold is the sore throat. When the small areas of tissue in the back part of the throat, called lymphoid follicles, are inflamed, the condition is said to be pharyngitis. When the tonsils only are affected, the condition is known as tonsillitis.

Laryngitis is also a frequent complication. When the larynx is affected as the result of a cold and sore throat, the person will notice changes in the caliber of his voice. The voice change may be slight or there may be a complete loss of voice. Hoarseness is often caused by an accumulation of secretions that interfere with voice production and if it persists for more than two or three weeks should be thoroughly investigated, for it may not be a cold at all but something more serious.

Bronchitis, an inflammation of the mucous membrane of the bronchi, ordinarily starts as the result

of a nose and throat infection, and extends downward into the trachea and bronchi.

In all these infections of the lower respiratory tract, coughing and expectoration of quantities of phlegm are common symptoms and cause great distress.

Unfortunately the exact cause of the common cold is not known.

The so-called antihistamines have

proved of little value scientifically,

since they do not act against the

viruses or bacteria which are believed to cause infectious colds.

Until more is known about the common cold, bed rest and certain of the simpler drugs to relieve discomfort are to be recommended.

While colds seem more frequent in the winter months, they are also

common in all seasons of the year

and, if neglected, can lead to many complications of the respiratory tract.

Its
power packin' punch
put it No. 1 in V-8 sales

And now Ford's new 225-h.p. engine
gives you even hotter performance!

Today's biggest trend in automobiles is to the V-8 engine. That's because today's car buyer demands performance. And latest sales figures show that the Ford V-8 with its power-packin' punch is the *largest-selling eight* in the world! Official figures for 1955 show that 346,373 more people bought Ford V-8's than bought the two other low-priced eights combined!

But now Ford is setting an even *hotter* V-8 pace by making available the biggest engine ever offered in the low-price field. It's the Thunderbird Special V-8—and you can order it now in Fairlane and Station Wagon models. This engine has a displacement of 312 cubic inches and delivers 225 horsepower. It whisks you from "whoa" to GO as you've never gone before!

And Ford gives you that wonderfully long, low look of the Thunderbird in all of its '56 models. You get new Lifeguard Design, also, to help protect you in case of accident. Test Drive this great new '56 Ford... today!

You get more GO for your "dough" in a

SOCIETY EVENTS

Two Hundred Attend Mother and Daughter Banquet of G.A.A.

Approximately two hundred persons were served at the Mother-Daughter banquet given Saturday in the gymnasium of the Antioch High school sponsored by the Girls' Athletic association. All of the girls in the high school were privileged to have their mothers as their guests.

Fantasyland was the setting of the banquet. The theme of decoration was emphasized with quantities of balloons and a mural running the length of the gym.

Following the banquet a program of the fine entertainment was presented. Donna Dittmer, president of the G. A. A. gave the welcome to the mothers, and her mother, Mrs. Fred Dittmer gave the response. Judy Horton presented a solo, a dance was done by Lillian McNeil assisted by Donna Dittmer and Mary Lou Seyfarth and a pantomime was given by Marilyn Paglusch and Shirley Cooney. Vera Voyt, Chicago model, was the speaker of the evening and presented tips on charm which included a make-up demonstration on one of the mothers, Mrs. Richard Seyfarth.

Freshman awards were presented by Miss Mary Donovan, adviser, to Sandy Barnstable, Sue Ann Barnstable, Elaine Christensen, Ione Cribb, Jeanne Filiaultreault, Mary Lou Geist, Janet Deisler, Charlene Keulman, Karen Keulman, Judy Malek, Christine McNeil, Lee Osmond, Marilyn Paglusch, Arlene Rozek, Mary Shepherd, Alice Staunton, and Karen Van Patten.

Sophomore awards were presented to Barbara Alshouse, Cathy Arndt, Sue Carol Barnstable, Joan Burton, Peggy Cardiff, Pat Dressel, Mary Forbrick, Betsy Frazier, Rosellen Furlan, Pat Galiger, Donna Gibbs, Pat Hamlin, Annabelle Hribar, Caron Marotta, Kathleen O'Haver, Maureen Smith, Eleanor Storch, Mary Tully, Lucille Wells, Elaine Wohlfel, Paula Zeien, and Judy Zelbier.

Junior state awards went to Garnet Behrens, Yvonne Bigner, Shirley Cooney, Carol Frazier, Laura Hansen, Judy Horton, Judy Hostetler, Janice Kiehl, Caroline Kroeplin, Joan Mair, Patsy Palmer, Janet Rogers, Mary Lou Seyfarth, Marian Stowe, and Sandra Tegelman.

Senior state maps were received by: Donna Ballwanz, Arlene Cribb, Donna Dittmer, Joan Forbrick, Lillian McNeil, Sheryl Mair, Jackie Martin, Donna Masopust, Lou Osmond, Donna Reidel, Judy Reigler, Diane Sheehan, Mary Schwicht, and Sue Wolfenbarger.

Team trophies were received by Arlene Cribb, Donna Dittmer, Joan Forbrick and Yvonne Bigner. The sportsmanship award was presented to Donna Ballwanz.

The meal was prepared by the cafeteria cooks and served by G. A. A. alumni and "A" club members. Mrs. Marge Malski was in charge of the waiters and waitresses.

Officers of G. A. A. this year are: Donna Dittmer, president; Janice Kiehl, vice president; Donna Reidel, treasurer and Mary Lou Seyfarth, secretary.

Will Plan Camps for Girl Scouts, Brownies

The annual spring meeting for all registered adults in the Lakeside Girl Scout Council will be held at 8 p. m. Monday at Woodland Grade school, Gages Lake rd., Grayslake. Plans will be made for Brownie day camp and Druce Lake camp.

Baptist Bible Church Plans Mother-Daughter Dinner

The Baptist Bible church of Round Lake Beach will hold its first annual Mother-Daughter banquet at the church on Cedar Lake road and Highland Terrace at 6:30 Saturday, May 12. There will be special musical selections. Mrs. O. I. Onstad of Antioch will be the speaker of the evening and will also show pictures of the Holy Land. Tickets are available from Mrs. Heuer, Mrs. Blair and Mrs. Warman. There will be no charge for the tickets but a free will offering will be taken.

The Rev. William Franks is continuing his Sunday evening messages on the Prophetic Book of Daniel. Evening services begin at 7 p. m.

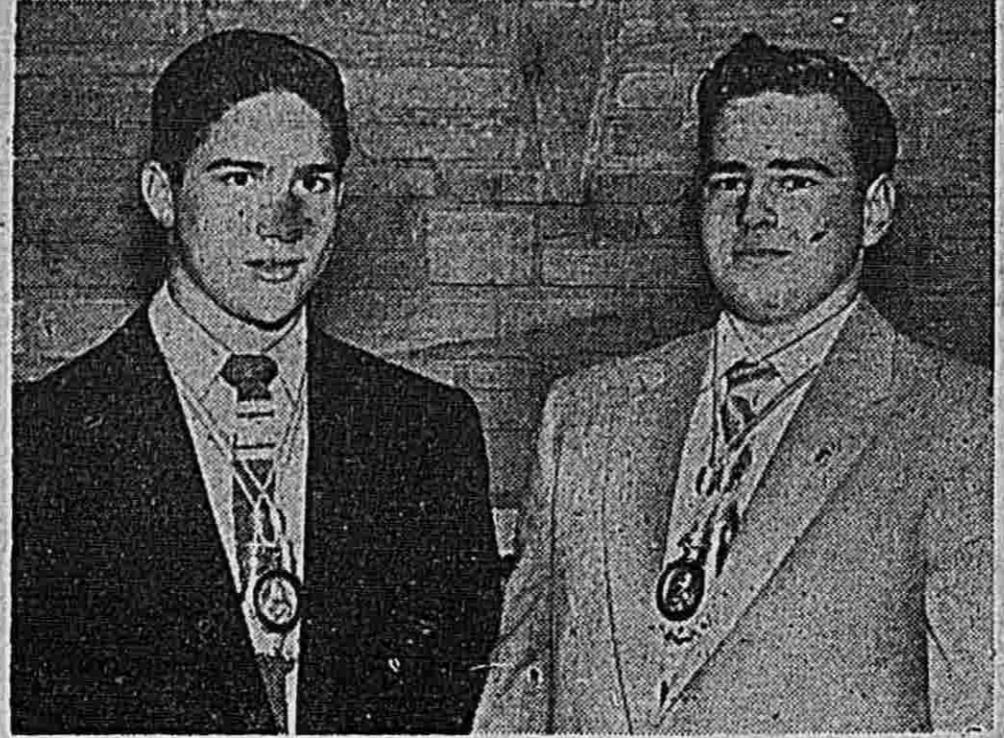

Beginning in the evening of May 3, a group of men and women from the church will make house to house calls, especially to those who are interested in sending their children to Sunday School or church. If you would like someone to call on you please phone Elliot 6-2898.

Club Changes Meeting Place

The Antioch Woman's Club found it necessary to change the location of the closing luncheon and now plans to meet at the Colony House at 12:30 p. m. Monday, May 7. Reservations will be received until the 3rd by Mrs. Edward Jacobs and her committee.

Mr. and Mrs. William Gerber and family were Saturday evening dinner guests at the Russell Hunter home at Great Lakes. Master Jimmie Gerber spent Saturday with his cousin Jimmie Hunter.

DeMolay Confers High Honors Saturday

Pictured left to right are Robert W. Terry, 17, of Antioch and Robert G. Swanson, 18, of Long Lake who have been elected by Lakes Chapter Order of DeMolay to receive the Degree of Chevalier Saturday, April 28 at 8:15 p. m. at the Libertyville Masonic Temple.

Robert W. Terry, 18 to Receive DeMolay Degree of Chevalier

Lakes Chapter Order of DeMolay will hold a public investiture of the Degree of Chevalier Saturday at 8:15 p. m. in the Libertyville Masonic temple.

Robert G. Swanson of Long Lake and Robert W. Terry of Antioch will receive this high award.

Robert G. Swanson, 18, is a Past Master Councilor of the Libertyville boys group and a senior at Grant Community High School. He plans to attend the Illinois Institute of Technology. Robert's parents, Mr. and Mrs. Herbert G. Swanson have been residents of Long Lake for the past 17 years. Mr. Swanson is employed by the Chicago Milwaukee railroad for the past 14 years.

Robert W. Terry, 17, is the present Master Councilor of the youth group. Robert is a senior at the University of Illinois. Robert is the son of Mr. and Mrs. William Terry of Antioch. Mr. Terry is associated with the Frostie Sno Mfg. Co. A brother, William F. Terry, also a DeMolay, is now studying at the University of Illinois.

The degree will be conferred by Ralph C. Shields of Mundelein, youth adviser, assisted by several members of the advisory board.

Sixteen Noble Grands Honored by Rebekahs

Sixteen "past noble" grans were honored by Lakeside Rebekahs Lodge Wednesday, April 18, at an evening in the Odd Fellows hall. Noble Grand Bernice Clark presented a gift to each of the 16 with word of appreciation for their services. Mrs. Frances Barnstable, Villa Park, showed colored slides of her western trip.

Eba Burnette, Ollie Tweed, and Bernice Clark served refreshments. The next meeting on May 2 will be a mother-daughter party.

Clara Wilton, Pewaukee, Wis., formerly of Antioch attended the meeting while a guest of Mrs. Maud Johnson of Lake Catherine. She arrived on Tuesday, April 17 and returned on the following Thursday after visiting many friends.

FERN LUX WATSON HONORED BY HER ASSOCIATE TEACHERS

A dinner party was given on Saturday evening, April 21, in honor of Mrs. Fern Lux Watson, at the home of Mr. and Mrs. George Hucker, in Waukegan.

June 6 marks the termination of Mrs. Watson's career as a public school teacher, and as an expression of their esteem the entire staff of the Washington grade school, including the husbands and wives joined in the festivities of this occasion.

As a climax to this unusual event Mrs. Watson and her husband were present a complete record album of Handel's Messiah.

Holt to Receive Honors

James Avery Holt, a former student of Antioch Township High school, was accorded freshman class honors at the University of Illinois and will participate in the Honors Day program at 1:15 p. m. Friday, May 4 in the University auditorium.

This, the thirty-second annual convocation, will give recognition to those students whose scholarship ranks them in the top 10 per cent of their class in their respective colleges.

Holt makes his home with his grandmother, Mrs. Della Holt in Antioch Heights.

WESLEY CIRCLE TO HEAR BOOK REVIEW

A regular meeting of the Women's Society of Christian Service of the Methodist Church will be held at Wesley Hall at eight o'clock p. m. Mrs. Edward Jahnke will lead the Devotions. Mrs. W. C. Petty will give a book review on "Lincoln's Sons" by Ruth Painter Randall. The evening circle will be guests. Mrs. John Wagner and her committee will have charge of the refreshments.

Lake Villa Community Methodist Church Will Erect New Building in South Part of Village

A five-acre tract of the Delbert Sherwood land in the south part of Lake Villa has been selected as the site for the proposed new Lake Villa Community Methodist Church building.

The officials at a quarterly conference Sunday agreed on the site and instructed William Cooley, Park Ridge architect, to draw up plans and specifications for a sanctuary seating 350 persons and an educational unit seating 250.

The Rev. Gerald B. Robinson, pastor, said the shell of the brick building will cost \$140,000 and the finishing and landscaping will be in addition.

The Wells Organization, a private company, will aid in conducting the campaign to raise the money.

Available at the start is a fund of \$5,000 which the church received as a gift in the will of the late Edward J. Lehmann, Chicago, which will be used to purchase the site and pay the architect fee.

There will be ample parking space around the church.

The present frame building on Rte. 21 will be sold.

Thank You

I would like to take this opportunity to thank all my friends and neighbors for the fine cards and gifts given to me at my 80th birthday.

Robert Runyard, Sr.

Card of Thanks

We wish to express our sincere appreciation to members of the Lake Villa Volunteer Fire Department and others, for their fine work when our home was threatened by fire.

The Blehl Family.

Antioch Residents Get State Rainbow Honors

Miss Mary Lou Bushing, worthy advisor of the Antioch assembly, Order of the Rainbow for Girls, has been appointed royal page to Mrs. Mary S. Abt, supreme inspector for the State of Illinois.

The honor is in recognition of Miss Bushing's activity in Rainbow. Mrs. Martha Hunter, 338 Harden st., has been appointed general chairman of the Grand Assembly which will be held at the Conrad Hilton hotel in Chicago June 28 to July 1 inclusive.

Hurricane Winds Now Are Measured By Radar Device

WASHINGTON — Hurricane winds this year will be measured by the electronic yardstick of a new radar system which will also serve as a navigational aid for flying weathermen of the USAF Weather Service.

Weather-modified WB-50 Superforts now replacing the WB-29 as weather reconnaissance aircraft are equipped with a new radar system for determining wind direction and speed.

With other weather reconnaissance information, radar wind data collected in this way will be used in the intensive hurricane research program to be carried out by AWS and the US Weather Bureau during the 1956 and 1957 hurricane seasons.

AWS officials expect the automatic radar navigator to be the greatest advance to date in weather reconnaissance by air. A continuous computation of winds at flight level is provided by the new radar set.

By comparing information from the radar unit with other data available in the plane, the navigator knows the aircraft's latitude and longitude at all times without further computation.

It was formerly necessary for navigators to spend several minutes in the calculation of the plane's position, using a complicated system. With the new set, a glance at an instrument dial gives the aircraft's true position.

Forest Industries Plant for Tomorrow

WASHINGTON — The nation's forest industries, sponsors of the American Tree Farm System, planted trees for tomorrow's timber crops on 239,028 acres of their own lands during the past year.

Total planting in the country reached an all-time high of 812,588 acres, 84 per cent of which was privately-owned lands.

Not only did wood-using industries plant generously on their own lands, but they furnished seedlings and technical assistance for thousands of small woodlot owners around the country, says James C. McClellan, chief forester for American Forest Products Industries.

Georgia, which leads the country in certified Tree Farm acreage, also led in tree planting with 98,384 acres, about half of which was on industry-owned lands. Florida planted 91,112 acres, 56,453 of which were industry-owned.

While the bulk of seedlings came from state-owned nurseries, 15 nurseries owned by paper and lumber companies produced 46,516,000 seedlings.

Old Steam Kettle Is Still Best Humidifier

CHICAGO — The good old steam kettle works better than a mechanical humidifier for treating a childhood respiratory disorder, a Haifa, Israel physician says.

Dr. Abraham Friedman said that the steam kettle is better because it can produce more moisture than a cold-air-mechanical humidifier, the now generally accepted apparatus. Moist air helps prevent the blocking of breathing passages which may occur in an acute inflammatory disease of the larynx, trachea, and bronchi.

He explained that in breathing the air enters the respiratory tract at room temperature and humidity. On its way down the air absorbs moisture from the membrane lining the passages. It finally is exhaled at body temperature and saturated with water. The difference in temperatures and humidities between the air inhaled and exhaled results in a continuous loss of water from the respiratory tract.

England Moves for More Scientists, Engineers

LONDON — The British Government has announced a five-year plan to spend \$238,000,000 on buildings and equipment for the education of scientists and technicians.

Official concern has been expressed both in Britain and the United States that the Soviet Union is turning out more scientists at a much faster rate than the nations of the West.

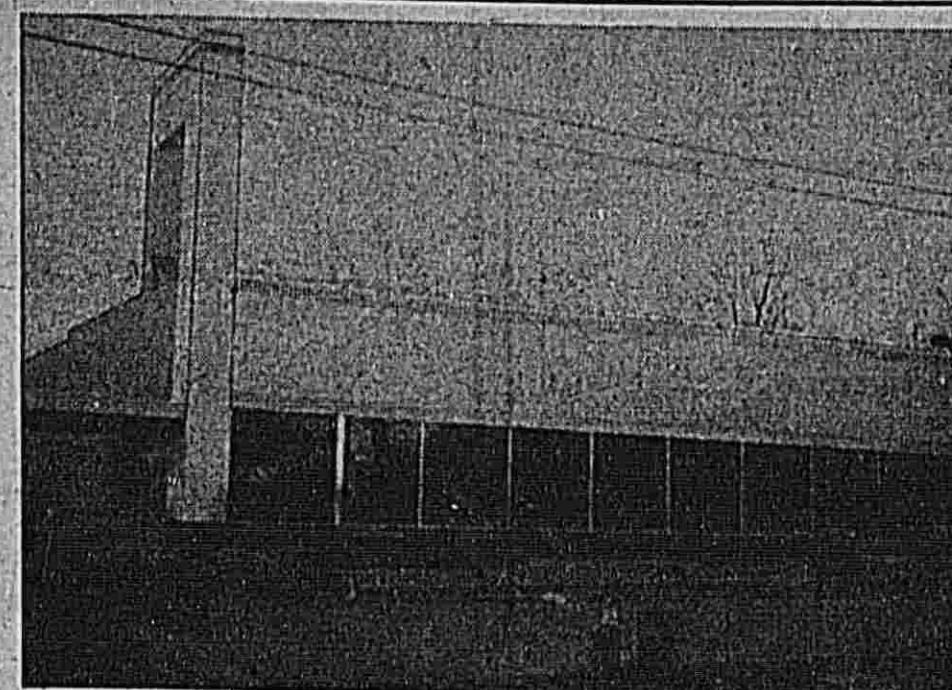

A Government White Paper announcing the plan to expand British technical schools said, "The pace of change is quickening, and with it the need and demand for technical education."

Off Key Request

BOISE, Idaho — The Idaho Highway Department says it receives some odd requests for information. A recent one, from California, had employees stumped for a couple of seconds. It read:

"I would like information on elk, deer and bear hunting in Idaho." Seems the writer had hit the "e" instead of the "o" on the typewriter when asking for information on "bear" hunting.

Street Widened at New Jewel Store

View of new Jewel Tea Store soon to be opened on Lake street. New sidewalks are being laid, and the street will be widened to the same width as the eastern part in front of the Pouls building.

Tenders \$1,143 Check for Red Cross

Mrs. Arnold Koenig, center, chairman of the Red Cross drive in the Antioch area, is shown handing to John P. Kottcamp, Waukegan, general fund chairman, a check for \$1,142.43 as her community's contribution to the fund. At the right is William J. Whetstone, Waukegan, American Red Cross chairman of the North Lake County chapter, of which Antioch is a part.

St. Peter's Basketball Teams, Cheer Leaders, Coaches Feted Tuesday

St. Peter's Council of Knights of Columbus entertained the school's basketball team and cheerleaders at a social meeting Tuesday evening at the American Legion hall.

Mayor James McMillen and his son-in-law, John Kadacek, entertained the youngsters with stories of wrestling; showed them various wrestling holds, and methods of self defense.

Coaches of the basketball teams Bob Gross, Bob Weber, and Jerry Quilty were present.

The coaches, team members and cheerleaders were given gold basketballs and pictures of the teams. Thirty-one boys and 15 girls were present. Refreshments of ham and pop were served.

The committee in charge of the social gathering comprised Fr. Alfred J. Henderson, Joe McGrath, Frank Mitchell, Ray Yancey, and Mel Umenhofer.

SCHOOL OFFICIALS SAY USE OF JANITORS AS BUS DRIVERS GIVES THE JANITORS INTERIM TIME DURING HOURS WHEN THEY CANNOT WORK EFFECTIVELY IN THE SCHOOL BUILDING. THE SCHOOL IS GETTING SO LARGE THAT THE LARGE NUMBER OF BUSES CALLS FOR GREATER MAINTENANCE AND ADDITIONAL FACILITIES TO KEEP THEM IN OPERATION. A SATISFACTORY CONTRACT MEANS THE SCHOOL IS RELIEVED OF RESPONSIBILITIES AND WORRIES.

Milk to Bring \$3.53 and \$3.13; Increase In Effect Next Month

Chicago — Two prices will be paid to dairy farmers in the Chicago area for milk delivered during March. The price of base milk is \$3.53 a hundredweight for milk testing 3.5 per cent butterfat and delivered to the 70 mile zone.

Dairy farmers who deliver more than their established base will receive a price of \$3.13 for their excess milk. Each dairy farmer establishes his own base equal to his daily milk production during the months of September, October and November.

The March prices were announced by the Federal Milk Marketing Administrator's office in Chicago.

The March prices will not be af-

fected by the price increase negotiated recently between Pure Milk Association and the Chicago milk dealers, Harry Edwards, head of the marketing department for Pure Milk Association said.

The price increase which went into effect on April 18 will be reflected in the milk checks next month, he said.

The March prices are 14 cents above the March prices last year. The \$3.53 price averages around 7½ cents a quart to dairy farmers.

Edwards said that milk production increased by four per cent in March over March, 1955. Instead of becoming a burden in surplus this extra milk was sold to consumers in the Chicago area. Sales of fluid milk and cream increased by just the amount of the increased production compared with a year ago, he said.

Buick CENTURY
6-Passenger 4-Door Riviera,
Model 43D

Makes Friends
with the Meanest Roads
(Have you tried Buick's great new ride?)

THE SWEET WAY a '56 Buick rides on all sorts
of roads is something you find nowhere else
on wheels.

Capricious roads that twist and turn—unruly
roads that rock and roll—tired roads, battered
and beaten—they all seem to wear company
manners the moment a Buick approaches.

Why? Simply because Buick comes with what
it takes to put any road on its best behavior—the
completely ride-engineered combination of
chassis, engine and automatic drive that is
obtainable in no other car.

And that's gospel truth whether you drive a
new SPECIAL, CENTURY, SUPER or ROADMASTER.

No other car matches the firm, true tracking of
Buick's own ride foundation—buttressed by
brawny X-braced frame and torque-tube drive
—cushioned on coil springs and deep-oil shock
absorbers.

No other has such width of tread and length of

wheelbase within dimensions so trim and tidy
that Buicks turn, park and garage more easily
than smaller cars.

No other duplicates the assurance of steering,
brakes and rear axle so precisely geared and
gaigned for the nimble handling that's a safety
"must" in modern cars.

And certainly no other name plate promises
the soaring sweep of power that wells from
the big 322-cubic-inch-V8 beneath every new
Buick bonnet.

Nor does any other automatic drive put power
to its car's rear wheels with the swift, unrfuled
pace of Variable Pitch Dynaflow*—and that
goes double every time you "switch pitch" for
whip-quick, safer passing.

Well, sir, we cordially invite you to drop in
on us and do just that.

Make it this week, won't you? Sample the ride
that has charms to win any old road—and get
first-hand figures on prices that make Buick
owning a more positive pleasure.

*New Advanced Variable Pitch Dynaflow is the only
Dynaflow Buick builds today. It's standard on
Roadmaster, Super and Century—optional at modest
extra cost on the Special.

Millburn

Mrs. Frank Edwards, Correspondent
Phone Eliot 6-3323

Regular services at Millburn Congregational church April 29, include Sunday school at 9:30 a.m., and first church service at 9:30 a.m. Guest speaker will be the Rev. Lewis Wakeland, pastor of Washburn Congregational church at Half Day and the second service will be at 11 a.m. and conducted by the Rev. Delbert Schrag, pastor of the Ivanhoe Congregational church. All services will be on Daylight Saving Time.

The Study Group met this (Thursday) morning at the home of Mrs. A. Weindorf from 9 to 11. One hundred and forty-five attended the Mother-Daughter banquet held at the Millburn Congregational church last Wednesday evening. The banquet was sponsored by the Men's Club.

Mr. and Mrs. George Swenson are the parents of a son born Saturday, April 14, at Condell hospital. He has been named George Allen, junior.

Rev. L. H. Messersmith and five young people attended the Kendall College Choir concert at the First Methodist church in Waukegan Sunday evening.

The Millburn P. T. A. will meet at the Millburn church Tuesday evening, May 1, at 8 o'clock. The pupils of Yvonne Dux, Dance Studio will present the program which is in charge of Mr. and Mrs. Kenneth Young.

Mr. and Mrs. Edward Melton and family of Waukegan spent Sunday afternoon and evening at the Herbert Graham home.

Mr. and Mrs. Russell Myers are the parents of a son, Gary Allan, born Wednesday, April 18 at Condell Memorial hospital, Libertyville. Royal Kerr returned home from Condell hospital Sunday after a surgical operation.

Twenty members and two guests attended the Couples Club at the Hosts were Mr. and Mrs. Floyd Wetzel and Mrs. Carl Anderson and Mrs. Ida Truxax.

Mr. and Mrs. Jacob Kaluf, Mrs. Cornell Kaluf and Mrs. A. Kaluf, of Munster, Ind., were callers at the Frank Edwards home Saturday afternoon.

The Rev. and Mrs. L. H. Messersmith and Mrs. Carl Anderson attended the spring meeting of the Chicago Congregational association Tuesday afternoon at the United church of Hyde Park, Chicago.

Mr. and Mrs. Peter Tillich of Antioch were callers at the Eddie Hoffman home Monday evening.

IT'S TORQUE THAT
MAKES THE WHEELS GO 'ROUND!

... And the High-Torque Output of Oldsmobile's Famous Rocket Engine Is Instantly Translated into Outstanding Performance at the Rear Wheels!

LET'S TALK TORQUE! In plain language, torque is "twist." It's the force that makes the wheels go 'round.

So it follows . . . the more torque your engine has, the more go power your car has . . . the more getaway at the light . . . the more action on the open road!

That's why, when it comes to power, there's nothing like Oldsmobile's Rocket T-350 Engine—because the Rocket is torque TNT! Figures prove it: 350 pound-feet at 2800 rpm (340 pound-feet at 2400 rpm in '88" models).

OLDS CHASSIS IS ENGINEERED TO HANDLE HIGHER TORQUE!

Oldsmobile has the chassis to take Rocket torque . . . a skillfully engineered Oldsmobile chassis with an extra-sturdy, dynamically balanced drive shaft, and an extra-rigid frame that resists twisting and weaving.

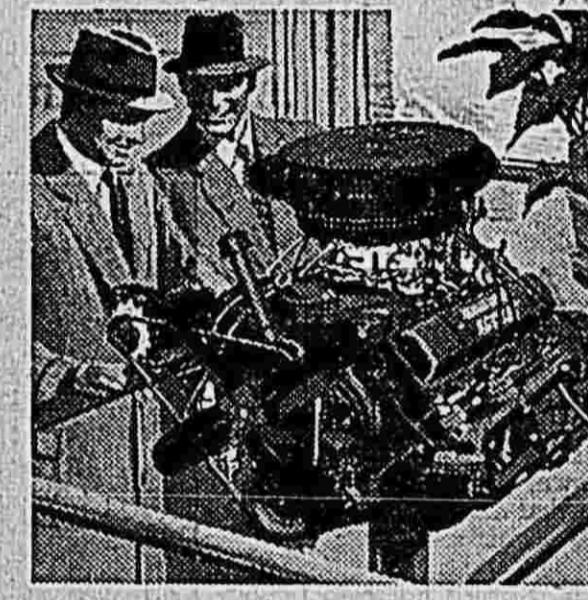

What's more, the Rocket's got horsepower—to spare! And with Oldsmobile, it's high usable horsepower . . . a by-product of engine design aimed straight at the wheels—design that translates horsepower into terrific torque at normal engine rpm's.

TOP TORQUE MEANS
TIP-TOP PERFORMANCE!

The result is higher torque—silken, responsive Rocket action! Touch the accelerator—ever so gently—you "go" . . . and we do mean "GO"! You thrill to smoother, swifter bursts of power for everyday use—spectacular performance, when you need it . . . when you want it.

Any way you look at it, you can't top the Rocket for thrills or the money—or for top return when it's time to trade. Stop by soon. Rocket 'round the block . . . or around the town if you like!

*240 hp. in Ninety-Eight and Super 88 models; 230 hp. in '88" models.

OLDMOBILE'S ROCKET—a double winner in 1956 Mobilgas Economy Run. Get the feel of top horsepower, top torque in the engine that's an economy champion, too!

The speed of the modern ELECTRIC ranges!

From freezer to table in 4 minutes! Like all modern electric ranges, the surface unit on this Kelvinator combines high-speed cooking with accurate control.

25% faster than 5 years ago—

today—nothing cooks faster!

Cooking temperatures unlimited! Kelvinator's new Thermo-Static Action Switches give precise control of any cooking heat. New models are available in 8 colors and white.

See your electric appliance dealer

Some of the most remarkable advances in the entire appliance field have been on electric ranges.

For example, new and improved surface cooking units were designed by America's great electric industry research centers. Better and faster ways of transforming electricity into quick heat for cooking have followed. Plus controls that offer a wide range of temperatures that you can depend on to give the same even heat, every time.

But modern electric ranges have more than well-controlled speed. They will keep your kitchen an average of 10 degrees cooler and far more comfortable. And electric broilers give you clean, radiant electric heat that sears the juices in meats. It's like broiling over charcoal, only faster and easier.

Today's electric ranges also keep your kitchen cleaner. (Something worth remembering if you plan to build, buy or remodel your

home.) You will see many more of the "new idea" features in the latest electric ranges. Ask your dealer to show them to you. And while you're there find out just how easy it is to have an automatic electric range in your home.

Big Saving—We Pay Part of Your Range Installation Cost!

Need new wiring to install your electric range? We share the cost with qualified home owners in 1, 2 and 3-family dwellings. This can cut your expense by about half.

And you get more than a money saving!

The modern wiring that goes with your installation helps improve your TV picture, brightens lights, makes everything electrical work better. You can also install a 240-volt electric dryer, water heater or air conditioner quickly and cheaply. The Share-the-Cost Plan is available on terms of up to 2 years.

Bowling

Ten Pin Toppers
Tuesday, April 24

Tuttle Mink won high team series with games of 716-699-724—total 2139.

I. Noble was high individual scorer, having games of 162-142-177—481 total.

Sexauer won two games from Art's Paint Store.

Pasadena won two games from Adolph's Channel Inn.

Servicenter won two from Meyer's Tavern.

Recreation won two games from Van Patten.

Gibbs & Janssen beat Bel-Aire all three games.

Tuttle Mink won two games from Hazelman's.

OUT ON A LIMB

By Stumpy McCulloch

Farmer Jones owned a mighty tough ram, but luckily he had discovered that music soothed the savage beast. One day, as he left for town, Ol' Jones reminded his son, "If that dang animal starts gettin' rambunctious, just put a record on the phonograph."

That night, Jones returned home and discovered the ram had plunged his head against a wall and knocked himself unconscious. "What's the matter, son?" he demanded. "Didn't you play the music like I told you?"

"I sure did," the boy said. "But the record I chose seemed to drive him crazy. It was Frank Sinatra singin' 'There'll Never Be Another Ewe.'"

Out in the Rocky Mountains, some scientific sellers are working on a new experiment to fight forest fires. It's called Project Skyfire. For three years, they've been studying the birth and growth of thunderstorms, and soon they hope to show that—by skillful cloud seeding—storms can be broken up before they form. That means lightning—which has been known to start as many as 400 forest fires a day in a single woodland—can be nipped in the bud!

That ain't all, either. Out in California, some other sellers have been experimenting with helicopters for firefighting. Last year, "copters were used to fight 200 test fires. They dive-bombed spot fires with 100-gallon canvas buckets of water. They whisked hose lines up steep mountain slopes, and delivered equipment to areas cut off from road travel. They hoisted fire crews from one danger spot to another, and broadcast fire commands to crews on the ground. All in all, they're findin' new ways to fight forest fires—and that's important to everybody who loves the national parks and forests, and to every one of us farmers with a wood lot to take care of!

"Schoolmarms" can cause us woodsmen a bit of trouble. That's a pair of trees that are grown together at the base, like Siamese twins. If the two trees grow in opposite directions, they'll probably have to be felled separately. When I use a one-man saw, I generally make the undercut as usual, then bore in between the two trees in order to get started on the back. When one tree is out of the way, it's easy to cut the other.

Eben tells me he knows a mother hen who told her wayward chick, "If your paw could see you now, he'd turn over in his grave!"

See you next week!

Small Stuff Only

BUTTE, Mont.—Arrested on suspicion of burglary, a 9-year-old boy told officers he never stole a bill larger than \$5 for fear that if he tried to change it he'd be asked where he got it.

The boy and his companion, aged 12, confessed to at least 50 burglaries and petty thefts in the Butte area.

Donna Ballwanz Wins Trophy

Donna Ballwanz, winner of Sportsmanship Trophy presented by G. A. A. at annual Mother-Daughter banquet. Shown also are Mrs. Ward Kiehl, Mrs. Jerry Donovan, and Miss Narcissus Donovan, Girls' Athletic director at A. T. H. S. who presented trophy.

News-Sun Photo

America's New "Sweetheart" Meets The Stars

Wearing the crown of America's "Sweetheart of the Corn" Anita Neil Miller of Battle Creek, Mich., poses prettily with Mr. W. H. Vanderploeg, left, president of the Kellogg Company, and Andy Devine, who emceed the 50th Anniversary ceremonies of the Kellogg Company, at which time Miss Miller was formally presented with her title.

Following the ceremonies, the new "Sweetheart" was flown to Hollywood where she appeared on Art Linkletter's "House Party." While on the Coast, she was the guest at Warner Brothers Studio and had lunch with Gig Young, Clint Walker and Vera Miles.

She visited the Mocambo nightclub and danced with George "Superman" Reeves who took her to Ciro's where she was introduced to Orchestra Leader

Chances are one in four you own some United States Savings Bond. More than 40 million Americans do, you know.

The surest way to have something in the future is to save now through Savings Bond purchases on the easy Payroll Saving Plan.

People stop growing with maturity, but Series E Savings Bonds keep right on for another 10 years.

Roads are useful in many ways. One of the best, to my way of thinking, is for holdin' parades on. They held one down at the junction last week. I was watchin' it from Mercy's house. As the parade came by, I looked around and saw that Mercy wasn't there. "Where's Mercy?" I asked.

"Upstairs, wavin' her hair," someone said.

"What's the matter?" I asked.

"Didn't nobody bring a flag?"

For the bigger things in life, U. S. Savings Bonds are the answer. They are completely safe and sound.

Millions of people buy U. S. Savings bonds regularly through the easy, automatic Payroll Savings Plan.

The Series H. Bond, younger sister of the popular E bond which is now 15 years old, has been issued only since mid-1952, will pass the 3 billion dollar mark in sales before it is four years old.

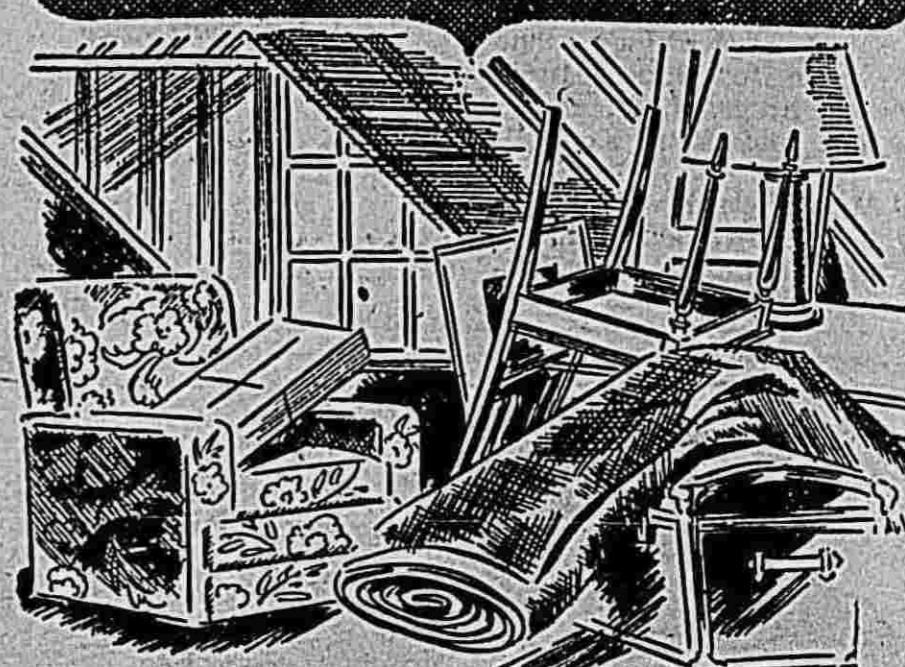

The Series H. Bond, offered since mid-1952, is specially designed for those who want the complete safety and good return of the popular E bond, but want the return in the form of current income, by Treasury check twice a year.

With those who know investments best, the U. S. Savings bond has no superior.

U. S. Savings Bonds are not subject to market fluctuations. You know in advance just how much they will be worth at any given time in the future.

BETTER THINGS FOR BETTER LIVING THROUGH CHEMISTRY

Right here's where you start saving the **BIG** money!

New INTERNATIONAL Trucks are

all-truck built

No matter what size trucks you use in your business, you'll find it's better business to use INTERNATIONAL Trucks.

They're **all-truck** from the drawing board out. No compromise with passenger car engines or components. INTERNATIONAL Trucks are all-truck built to stay on the job longer, more dependably. Fewer and less costly repairs mean you save **BIG** money over the miles and years.

Don't take our word for it. Let an INTERNATIONAL Truck prove it on your job.

Your trade-in may cover the down payment.
Convenient terms arranged.

Modern styling and features

- Functional good looks—practical for truck work.
- Power brakes, power steering, automatic transmission, and overdrive, optional on many models.
- Comfo-Vision Cab driver-designed for extra comfort, extra safety.
- More usable horsepower from engines designed solely for truck work.

THE ANTIOCH NEWS

ANTIOCH, ILLINOIS

Deep Lake

Mrs. Millie Luehr, Correspondent
Eliot 6-4946

Esther Dillon of Riverside, Ill., was a guest of Edna Stevens for the week. Florence McGuire spent a couple of days. Saturday guests were Mr. and Mrs. Moody of Chicago and Dick Stevens of Skokie. Mr. and Mrs. Carl Maier of Chicago. Mr. and Mrs. Frank Dillon and family, Riverside, Ill., Mr. and Mrs. Carl Larson, Pistaqua His., and Harry Cochran of Chicago were Saturday dinner guests.

Mr. and Mrs. Joe Galiske are entertaining their grandchildren this week.

Mr. and Mrs. Harry Voss gave a birthday dinner for her son, Mr. Mulvaney and his family.

Mr. and Mrs. Axel Teegan are back home from Arizona after spending the winter there.

Mr. Harry D. Hanson passed away Monday, April 23. He has had a heart condition for many years. He was a pioneer of Deep Lake. He has made his home with his daughter and family in Westchester, Ill.

Mr. and Mrs. Art Sletten served a delicious lunch after the meeting last Saturday night. The weed control in Deep Lake is being considered.

Mrs. Norma Larson is back home from Peoria. She attended a P. T. A. convention as a delegate.

Mrs. Astrid Johnson enjoyed a duck dinner at the Luehr's last Sunday.

Correspondence from Hollywood, Fla., from Mr. and Mrs. William Bohmann—they say hello.

In Memoriam

Burnette: In loving memory of our dear wife, mother and grandmother, Bertha M. Burnette who passed away two years ago on April 29, 1954.

Nothing can ever take away

The love a heart holds dear.
Often a lonely heartache,
Many a silent tear.
Two loving hands are resting
A voice we love is still;
Death has left a loneliness
This world can never fill.
Your memory to us is a keepsake,
With which we will never part,
Though God has you in his
keeping.

We will always have you in
our hearts.

Loving Husband and family

(Legal)
REQUEST FOR TRANSPORTA-
TION BIDS

The Antioch Township High School Board of Education, District No. 117, is considering a private bus contract for transportation of their high school students for the 1956-57 school year.

The five buses owned by District No. 117 will be sold to the private contractor and a purchase price should be given on these buses.

Approximately 325 students will be transported next year and there will be approximately 100 bus miles traveled each day.

The private contractor should list the capacity of the busses to be used.

All busses must meet State of Illinois school bus transportation requirements.

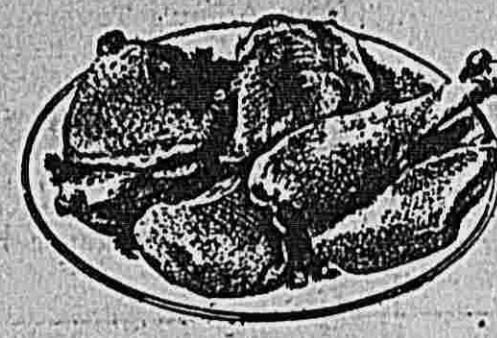

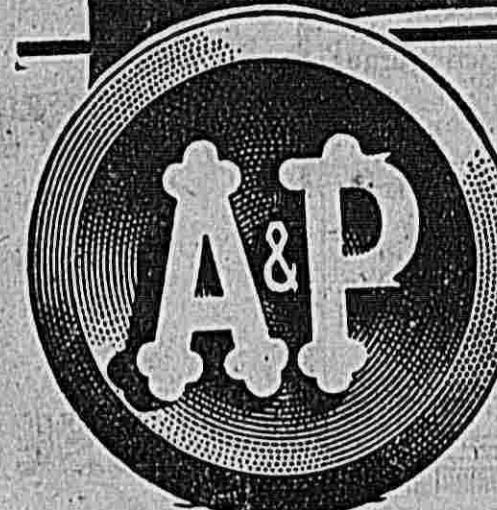

The bid for the above transportation must be in the high school office by Wednesday, May 9.

Mrs. Byron Patrick, Correspondent
Tel. Bristol 110-F22

The annual meeting of the Library Cemetery association will be held on Saturday, April 28, at 2 p.m. at the Byron Patrick home. All members are urged to attend.

Mr. and Mrs. Andrew Rafferty of Rockford called on the Robert Patrick family on Sunday.

Mrs. Harriet Krautkramer is making an indefinite stay with her sisters: Mrs. Charlotte Bross and Mrs. Nellie Head.

Mr. and Mrs. Arthur Feldkamp and Mr. and Mrs. Robert Imrie are spending the week end with Mr. and Mrs. Orville Riggs at Stone Lake and helping the Riggs celebrate their wedding anniversary.

Mrs. Lester Dix spent Monday with her sister, Mrs. Natalie Stroope of Wauconda.

Mr. and Mrs. August Drom of New Lisbon called on Mr. and Mrs. Byron Patrick on Tuesday.

Mr. and Mrs. Norman Barthel of Phillips, Wis., spent several days the past week visiting relatives here.

Guests at the Byron Patrick home on Sunday were Mr. and Mrs. Dan Scott and Mrs. Elizabeth Ellis of Waukegan and Mr. and Mrs. William Kruckman of Burlington.

Mr. and Mrs. Conrad Konzinski of Milwaukee spent the week end with the latter's parents, Mr. and Mrs. Frank Dix.

Robert Schmidt of Madison University spent the week end at the home of his parents, Mr. and Mrs. Alfred Schmidt.

Mr. and Mrs. Ronald Fircou of Whitewater spent the week end with their parents, Mr. and Mrs. Earl Fircou.

The Illinois Veterans' Commission has announced that high school graduates who are children of veterans of World War I, World War II, or the Korean Conflict may receive scholarships to attend any of the departments of the University of Illinois.

Scholarships are awarded to qualified candidates who have completed high school and are not less than 15 years of age, or to candidates who have had college work in the university of Illinois or elsewhere.

Farmers' Band Plays Important Role in Community Life

CHICAGO—A Farmers' Band, founded nearly 30 years ago in the heart of the Southern, Michigan fruit belt, has played an important part in the unity and progress of the community.

The musical group has played such a significant role in the lives of the people is the 35-member Farmers' Band of Leisure Corners, about 13 miles outside South Haven.

Formed in the interest of better living, this group is typical of many farm areas in the United States that have grown in musical activity.

Contributing true community spirit, the Farmers' Band plays for benefits, charities, holidays, festivals—or just for fun—and their music offers something for every taste. The band's concerts sparks many community activities and is a source of civic pride.

About 80 per cent of the band's members are local farmers and range in age from the teens to over 70 years. The farms range from 40 to 200 acres in size and produce mainly apples, peaches, pears, cherries and plums. Recruits for the band come from the new people in the community and from the South Haven and Fennville high school bands.

Weekly rehearsals are held and distance seems to make little difference to these farmers. Some members travel as far as 20 or 30 miles to play—rain or shine—and after a long day in the field or orchard.

Difference in age is no barrier, either," says Jos. Clark, director of the Farmers' Band. "Teenagers play alongside grandfathers and share their experiences."

Earthworm Proves High Intelligence

BERKELEY, Cal.—Earthworms exhibit one of the highest known types of learning, says a University of California graduate student.

Mrs. R. P. Bharucha-Reid has been training earthworms—just regular angleworms—so familiar to fishermen—to find their way through a maze of glass tubes.

She found that earthworms can learn their way around faster after training has begun if they are given a little time, first, to become familiar with their surroundings. This "familiarizing" is known as "latent learning" and is recognized as one of the highest forms of learning behavior.

Scientists have long been interested in finding out more about the learning processes of simple organisms in hopes of getting a better understanding of learning in higher, more complex forms.

Prospects for Future Scientists, Engineers

CHICAGO—The nation's largest scholarship organization reports that a high percentage of the nation's most gifted high school students plan to make science and engineering their career.

The National Merit Scholarship Corporation conducted tests among 60,000 high school seniors to determine winners of \$3,000,000 worth of scholarships.

It said a survey among 5,078 semifinalists showed that 56 per cent of the boys and 18 per cent of the girls want to become engineers or scientists.

In addition, 38 per cent of the girls want to become teachers.

Experts have been warning for some time that engineering and teaching are two fields in which the nation suffers from a shortage.

The survey showed that the next most popular field is medicine and other health pursuits, favored by 10 per cent of both boys and girls.

Business careers were favored by 8 per cent. Law was most popular with 8 per cent of the boys and 5 per cent of the girls.

Recorded Chatter

Parakeets' Downfall

DALLAS—Justice of the Peace Bill Richburg listened to the recording and then ruled a Dallas man had just complaint against his neighbor.

The neighbor admitted having 60 parakeets in his garage. The plaintiff contended the chattering of the birds kept him awake at night.

The evidence was a 15-minute tape recording of parakeet talk as heard from the plaintiff's bedroom window.

The judge gave the parakeet lover four days to dispose of the birds.

Jacqueline Cochran's

FLOWING VELVET

This modern flowing formula has helped countless women—just like you—who had despaired of a dry, prematurely aging skin.

Jacqueline Cochran has found a whole new answer to the dry skin problem and its main cause, the dehydration of the sub-surface tissues. After years of research, she discovered Hydrolin, a new ingredient that, for the first time, can and does transfer beneficial moisture into the deep tissues of the skin. Thanks to exclusive Hydrolin, blended with other rich components, Jacqueline Cochran created an entirely new kind of 3-way beauty formula.

Unique Flowing Velvet acts 3-ways:

It furnishes moisture that actually sinks into your skin.
It provides necessary oils for essential lubrication.
It maintains the normal balance of oils and moisture.

One touch mirrors the beautiful change! Tiny lines soften, years seem to melt away. Use Flowing Velvet day and night. It's hormone-free, greaseless, won't smear your make-up or smudge your pillow.

Our specially trained Jacqueline Cochran expert will be happy to show you what just a few drops of richly concentrated Flowing Velvet will actually do for your skin.

THE AMERICAN WAY

Allergic To Hot Air

Says "No Thanks, I Don't Want Any"

A circular letter received by the editor and we presume by many others, advertises a big "saving" on fire and automobile insurance to which we have the following reply:

"No, thanks! We shall be obliged to reject the offer... We get reasonable insurance rates by purchasing our insurance protection from established, reputable local agents who are here on the ground and whose services will be available should we have a loss against which we are protected in the standard insurance policies in our safe. We would not be obliged to indulge in lengthy correspondence with some stranger in Kalamazoo, or Timbuktu. The local boys would be on the job, would check and report the loss, and settlement would be made without difficulty or quibbling."

"Moreover, the established insurance agents are our friends and neighbors. They help support our schools which two of my kids attended for about 10 years, and from which they were graduated; they help support the churches that provide me and mine spiritual stimulation; they help support the police agencies that protect my property against plunder; they help support the fire department that protects my property against fire; they help support the city, school district, district, county and state governments that bestow many blessings upon me."

"Why should I take my insurance business from these bene-

TOM R. PHILLIPS, Owner-Publisher
Holdenville Daily News
Holdenville, Oklahoma

factors, these friends, these fellow citizens and give it to some foreign concern that doesn't care a tinker's dam about our town, except for what profit they can extract from it?"

"The few cents I would save on every hundred dollars of insurance protection I now have wouldn't begin to compensate me for the trouble and inconvenience in event of a loss. It isn't worth the difference."

"Cheap insurance is like any other cheap commodity; it's very apt to be more expensive in the long run."

Editorial—Daily News,
Holdenville, Oklahoma

Yes, Mr. Phillips, there's only one kind of insurance—THE BEST YOU CAN BUY! That's the kind you get when you insure through your local agent or broker. He is your neighbor—on the spot to tell you what protection you need, and on the spot to help you should you have a loss!

Natural Gas Now Sixth Largest U. S. Industry

WASHINGTON — Natural gas, once considered only the country cousin of the oil business, is now the nation's sixth largest industry.

Used 3,000 years ago by the Chinese, natural gas was first produced commercially in the United States in 1821 near Fredonia, New York. When General Lafayette visited the city in 1825, he was greeted by gas-lit streets and was served a gas-cooked meal.

Natural gas was not obtained in quantity, however, until after 1850, when oil began to flow. Burned off as a bothersome by-product, gas had to await modern steel pipes before it could be commercially distributed. In Fredonia, gas had been distributed through hollowed-out logs. Pipes of iron, lead and concrete were all tried, but none were as successful as steel.

Steel pipes appeared in the late 1920's, but a shortage of steel held back the natural gas industry during World War II. Since the war, steel pipelines have veined the country, reaching into all but five states and totaling 420,000 miles—or 17 times the distance around the globe.

Thus, through one of the world's great transportation systems, the invisible vapor flows, unheard and unseen. Except for pumping stations and office buildings, the natural gas industry runs underground.

Even storage facilities, mostly old abandoned gas fields, are hidden in the earth. One of these "cellars"—under the Government's gold vaults at Fort Knox, Kentucky—has a precedent in ancient history.

Rescue Methods Not Always Modern

WASHINGTON—Modern rescue methods were responsible for the recent rescues of 15 United States airmen. Eight were down in the Venezuelan jungles. Seven were lost in the Antarctic wastes. All were brought to safety.

In earlier days, searches for lost fliers and sailors were time-consuming and often unsuccessful. The 1937 disappearance of Amelia Earhart somewhere in the Pacific touched off one of the greatest hunts in history. And resulted in one of the greatest mysteries.

Captain Roald Amundsen, the polar explorer, disappeared while on errand of mercy. The dirigible Italia crashed near the North Pole. Amundsen and five men set out on a search for the survivors and were never seen again. The Italia's commander and eight of his men were eventually rescued.

One of the most successful of modern searches took place in 1942 when Captain Edward V. Rickenbacher and six others was forced down north of Samoa. They drifted 23 days on small rubber life rafts before being rescued by a Navy helicopter.

Iceland Seeking Trees To Cover Barren Lands

WASHINGTON—Forestless Iceland is striving to cover its rugged landscape once more with trees. Thanks to aid from friendly countries, its chances of success are good.

Short of woodlands for generations, Iceland is shopping the forests of America, Alaska, Norway and the Soviet Union for seedlings.

New forests in years to come will replace the woodlands seen by the Vikings upon discovery of the North Atlantic island in the 9th century. Then, the Norse sagas say, birch forests covered the lowlands between the coast and the interior mountains.

The birches eventually disappeared under the axes of settlers. New forest growths were devastated by the grazing of sheep, goats and cattle.

Random trees grown from seeds to sizable heights, demonstrating that Icelandic birch will flourish if protected from grazing livestock.

Ancient Egyptian Bowl Lost in London Fire

LONDON—The Great Hathor Bowl, a 5,650-year-old piece of Egyptian pottery, along with many irreplaceable books on ancient Egypt were destroyed in a fire at London University.

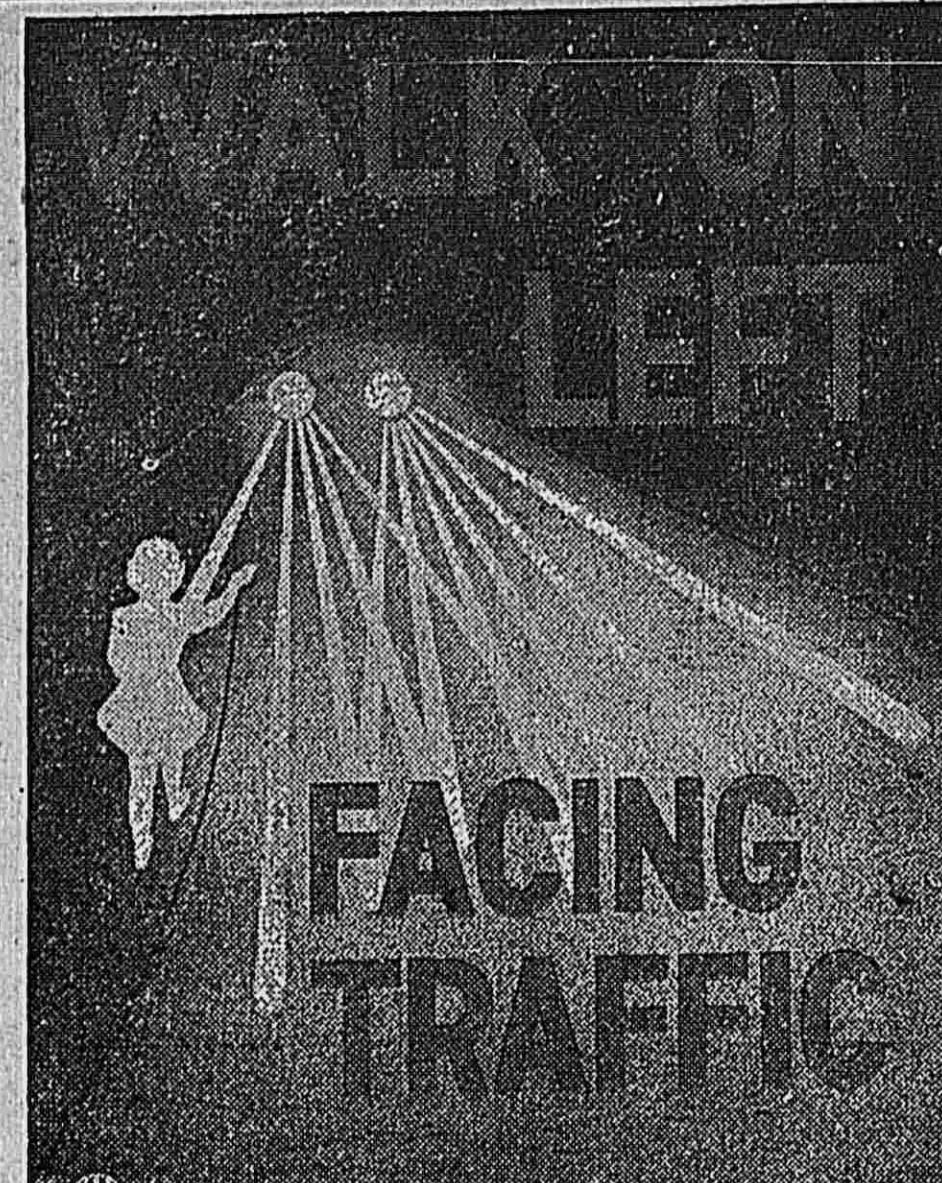

The fire was believed to have started in a laboratory filled with chemicals in which Martin Burgess had been fitting together the fragments of the Hathor bowl.

Burgess had spent two years piecing together the bowl, had almost completed his work.

Triple Charges

RALEIGH, S. C.—A judge sentenced Felix Foy to 30 days in jail for drunkenness, resisting arrest and destroying city property.

The property, it seems, was the pants of the policeman Foy had in resisting arrest for drunkenness.

When it's necessary to walk on the roadway, remember to walk on the left—facing traffic. In this way you can see traffic approaching. Each year two-thirds of the pedestrians killed while walking on a roadway made the mistake of walking with traffic. The habit of facing traffic when walking on a roadway saves many lives. A poster, depicting this safety rule, is being distributed by the Chicago Motor Club to more than 44,000 elementary school classrooms in Illinois and Indiana.

OUT ON A LIMB

By Stumpy McCulloch

Ol' Hannibal was braggin' to some city fellers the other morning down at the blacksmith shop. "That I was," he said, "trapped in a narrow canyon, with a grizzly bear twenty yards away behind a tree. Only way I could hit the critter was to ricochet a bullet off the high canyon wall on my right. Now, I'm a champion shot, as you probably know. I gauged my windage, calculated the lead of the bullet and the rate of twist, and I figured my chances of nallin' that b'ar were 80-20. A one-rail gun shot. A controlled ricochet. So I took aim and fired.

Ol' Hannibal paused. One of the fellers asked meekly, "Did you hit him?"

"None," Hannibal said. "I missed the wall."

My nephew Jimmie said to me the other day, "Uncle Stumpy, I reckon maybe I'd like to be a forester when I grow up." Well, sir, I said, "That's a crackerjack idea, sonny!" Then I got to thinkin' about it.

Lots of folks think forestry's sort of old-fashioned—that our forests are vanishing. That ain't true! More and more woodland owners are beginning to use the methods of better forest management—and the market for wood products is growing fast! Today, in fact, there are more jobs for foresters than there are men to fill them. Especially in the Northwest and Southeast.

What does a boy need to become a good forester? Well, I'd say he ought to love the outdoors. And he ought to be strong and healthy, because he'll often have to do hard work. He needs integrity, a good mind and a little business know-how. And he needs a good education—maybe at one of the 37 colleges in the U.S. that now offer full, four-year courses in forestry.

And after college? About half the 15,000 foresters in the U.S.—and about the same percentage in Canada—work for government agencies. A junior forester's first-year pay is \$3670, and by the time he's a forest supervisor he's making \$10,065. In private industry, beginning salaries are about the same as in government, but top salaries are often higher: some private foresters earn more than \$20,000 a year. All of which means that a boy like Jimmie can do well to think of forestry as a good job with a big future!

John McAuliffe, up in Boston, has a friend who's makin' plans for a trip West. "One week from today," he told his cronies at the General Store, "I'll be plumb in the middle of Yellowstone Park!" One of the others cracked, "Don't you forget Old Faithful." "I won't," Sam promised, "I'm takin' her with me!" See you next week!
